13. OUR PROSPECTS

We have a proven track record in delivering innovative services in a creative, cost-effective manner while remaining focused on our top priority - SAFETY. Our commitment to safety has led us to gain qualifications that enable us to work in such safety-critical environments such as the oil and gas (upstream and downstream sectors), manufacturing organizations, construction industry, private individuals, public liability companies and the National Grid.

Renowned for our honest, open-door approach, we maintain a strong working relationship with our clients based on confidence and trust. This is reflected in the high level of repeat business we receive and also the fact that we are approved suppliers to a large number of organisations. Potential clients are welcome to visit our offices and sites by arrangement to see at first hand the way we run our business and meet a few of our satisfied customers.

Our continual pursuit and commitment to excellence is found in everything we do. As a result, we scout for strategic business alliance and corporation with highly specialized companies to present the best of technology, manpower and tools and equipment that will be deployed to deliver clients projects beyond the set targets.

As part of our expansion plan, we look forward to establishing a fast-paced growing organization with increasing staff strength and capitalization that will give us the competitive edge in all our line of business.

We aim at participating in the international business arena as a mark of our quest to build an international standard of quality and safety in all our areas of business.
